

Cyber Security Hackathon

PEC ACM takes great pride in organizing the Cyber Security Hackathon in Association with Chandigarh Police and Stellar Forensics. The main aim is to find unique solutions to some of the recurring yet interesting problems in Cyberspace.

The themes for the hackathon are:

1. Cyber beat/ space patrolling
2. Child parent connect cybersecurity
3. Speech to text
4. Dark web monitoring
5. Malware Analysis

What might be a daunting task alone, can be easily done together!

Join us for this 26-hour event (8 Nov 9am- 9 Nov 11am) and stand a chance to win prizes worth 27k! Prepare yourself for hacking, coding, designing, building, and thinking BIG! If you're ready to create something crazy and innovative, then this is the event for you.

No prior knowledge of cyber security required

Compulsory to have PECFest ID

Get yourself a PECFest ID on pecfest.in/register
