Dear Sir,

I feel immense pleasure to appreciate service offered by Chandigarh Police today. Here are the details:

Today I am proud of Chandigarh Police and system..

I went to General Hospital sec 16 today. I saw an old man who was hit by an auto rikshaw and was dropped to hospital. He had injuries on his head and shoulder. I noticed that he was all alone roaming here and there, I went to him and helped him in getting first aid and arranged prescribed medicines for him. I asked him where he lives, he said he lives at Senior citizens home sec 43. I went to doctor to arrange a drop for him, doctor told me to go to reception and there I was told that ambulance will charge 500 to drop. I had my car and could have dropped that man easily, but I decided to check if there is something in our system which would help such people, so I walked to a policeman, he said he will arrange a drop if someone is going that side. Then I called PCR and dialed 100. The lady who answered my call promised me to send someone on the spot. I was talking to another constable Rajesh Kumar sitting in PCR, and was asking for help, he was told me that he cannot help until he gets instructions from his senior, in the meanwhile he was called up by control room to help me. He told them that he is engaged for some other case but requested to send another PCR, which was immediately arranged. Rajesh called up that PCR and requested them to come asap. Within 5 minutes another PCR gypsy came and Head constable Amrik Singh helped me and made that senior citizen comfortable in his gypsy and sat at the back seat to support him.

I felt very happy when I realized that Chandigarh Police has actioned so quickly that within 10 minutes help was arranged for that man.

**Heroes: Lady constable who answered my call at control room (12:22), CHG Rajesh Kumar and Head constable Amrik Singh. Thanks to these guys.**

Regards

Amit Nayyar
