Respected Sir

I, Harish Kumar Miglani f/o Gayatri Miglani who has participated in Self Defense Program Organised by AHTU, of Chandigarh Police from 29th May, 2015 to 29th Jun, 2015 would like to give you heartiest thanks for organizing such a useful program for females of Chandigarh.

I would like to congratulate Chandigarh Police Top Brass for their vision and those for instructors –Mrs.'Sanjay, Mr. Mukesh, Ms. Balwinder Kaur and Ms. Pinki who have executing their boss's vision/orders in truly professional manner with unbelievable dedication.

Sir, although the program was commendable and very beneficial for the female of Chandigarh but I would like to give some suggestion to make it really effective and more productive.

Firstly, This program should be advertised more vigorously as a small advertisement in newspaper may skip the eye of prospective participants.

Secondly and more importantly, I would like to say that it is a fact that Chandigarh Police cannot reach each and every female, neither each and every female can reach Police Line for getting this training. So I would like to suggest that some of the volunteer participants should be trained rigorously and given some kind of authentication so that they could volunteer as trainer in their respective institutes/schools. That will definitely wider the reach of this program and more females shall be able to benefit from this.

In practical 15 to 30 days training that too once in a year cannot really produced the desired result so this kind of program should be organized at regular intervals by taking Education Department in confidence.

I hope that some kind of sincere thought will be given to these suggestions as these suggestions are not of an individual but of most of the 380 participants this year.

In the end I would like to thank you once again for the vision behind organizing this program and its successful execution beyond any body's expectations.

Thanks and Regards
Harish Kumar Miglani F/o
Gayatri Miglani (Participant in Self Defence Program 2015)
