Drive against illegal rickshaws

Chandigarh: The traffic police launched a special drive against rehri/rickshaws with unauthorized engines, with 62 such illegal vehicles impounded from across the city last week.

Shashank Anand, SSP (Traffic), Chandigarh said, "Conversion of a non motorized vehicle to motorized through unauthorised fitment of engine poses many threats, both to the security of other citizens, as well as to the environment. Such an issue looks primitive for a smart city like Chandigarh."

He said that rehri and rickshaw are non motorized vehicles and so they are not subject to the various standards that owners of any motorized vehicle have to follow. "Rehri/rickshaw do not have headlights or any other safety equipment and can cause road accidents when used as a motorised vehicle," he said

The owners do not necessarily possess any driving license and are not trained drivers.

"The absence of number plates makes it difficult for the police to track the accused," the SSP said. **ENS**
